

1) Write about what you notice around you.

- What clues tell you that these buildings are from colonial times?
- How are the colonial buildings different from the buildings around them?

Fraunces Tavern was an important inn during colonial days, it is on the corner of the block in front of you. Many of these buildings were a part of Colonial New York.

2) Choose a building to look at carefully.

- What do the windows look like?
- What does the roof look like?
- What is the entrance like?
- How many floors does it have?

After looking carefully, sketch the building with as many details as possible.
