10/11/06	Hom Responses	I really would've gotten a way better grade if I actually did the point of view response for my book because I didn't get under an 80 so I probably would've gotten a eighty something instead of a sixty nine. I should've wrote more so that I got a way better grade than what I have now.
10/12/06	Homework and Teachers	I really expressed myself while writing this piece. If I wanted to do better in my opinion it would be way to good so to perfect this I will have to go back and revise it and stop using those run-on sentences
10/23/06	The picture	I tried to make this a very funny piece. This made me very happy to do because I like making fun of my self for some reason, I do agree that I do have run-on sentences.
10/27/06	Speeches	This was something that I could have done better on and I need to step up my writing.
11/21/06	Hom An Tigore essay	I did not come to school and I forgot to bring the peer review and my other homework so I did not do well. I need to keep on track and keep on top of schoolwork.
12/7/06	Essay	I need to work on putting details.
